I aint high no more.

My friend, Donald Sharp, nosed me out with a grade of 90.45, which beat my 89.18 by less than a point, which is as good as a mile.

Apparently Donald is high. I am second and Frank is third. From these three Mr. Ford must make a choice. Each one is an ex-service man. He told me he was going to make an appointment in the Spring, and, therefore, one of the above will be postmaster before Summer.

Poker players will know what I mean when I say: that in the "draw" I stood pat, and got beat, which is not the first time I have stood pat and been beaten in the draw.

May the man with the longest pole get the persimmon. Mr. Ford is going to make one ingrate and about 15 (16 in all) participated in the 2 examinations) bitter, implacable enemies, when he makes the choice.

Anyway, I was high from July 10, 1939 until Monday, whatever consolation may be gained from that.

Stakeholders, this is your authority to pay off all bets.

Here Mr. Top, a feller hear laffed and said all this hear static in the air cum from the govners office.

Mr. and Mrs. E. L. Boteler entertained their father and mother, Mr. and Mrs. E. W. Boteler, of Florence, and their brother and sister, Mr. and Mrs. Roy Boteler, of Jackson, and other kinsmen Sunday.

The merchants had an interesting meeting at the Community House Tuesday night, discussing and discussing the proposed spending spree, with emphasis on economy.

There is growing sentiment among the business men of Grenada that they suffered a great loss when WGRM moved to Greenwood. We would heartily welcome WGRM, our old buddy, back to Grenada. The intangible benefits of having the only station in North Mississippi gave Grenada prestige that was worthwhile indeed. We believe better support would be given WGRM should it decide to return.

Mighty sorry to hear that Brother Poe is seriously ill.

All applicants for positions on the police force are requested to contact the marshal-elect, Willard Odum. I am not going to vote to put anyone under him unless he approves them.

#### JOE HAS FINE DAY

Grenada Auto Company, celebrating its 30th birthday last Saturday, reported not only a most enjoyable birthday, in which at least 500 friends came bearing good wishes and flowers, but also most profitable one, selling four new cars and one old one. Canova coffee, cake and cigars were served to all who would partake thereof.

The Grenada County Weekly, which handled all of the publicity, was happy to be a part in this joyous occasion.

## Melvin Jones, Lion Club Founder To Visit In Jackson April First

Melvin Jones of Chicago, founder and Secretary-General of the International Association of Lions Club will be the honor guest and principal speaker at a statewide banquet of Lions Clubs being held at the Edwards Hotel, by the Jackson Lions Club, on the evening of Monday, April first. More than 400 are expected to be present at this occasion in honor of Jones, with most of the 47 Lions Club in Mississippi represented.

Jones is a native of Arizona. He went to Chicago in his early life, studied law, then entered the insurance field, later heading the insurance firm of Melvin Jones Insurance Agency. Jones assisted in the formation of the Business Circle of Chicago, and served as its secretary. As early as 1914 he conceived the idea on an International association of clubs founded purely upon community service. Jones idea of such an association became a reality on June 7, 1917, when Lions International was officially launched. The movement spread rapidly and the Lions Clubs are said to be the fastest growing civic service association in the world. It was not long after the association was launched until Jones abandoned a prosperous business career to accept the executive position of secretary-general of the association that he founded.

Under the leadership of Jones the Lions Clubs have grown into an association of approximately 4,000 clubs with a membership of near 140,000. The clubs are located in eight nations.

President I. F. Simmons of the Jackson club has named J. S. Lowe, Jr., chairman of the committee on arrangements and entertainment program, others who will serve on the committee are: Dr. I. F. Simmons, C. S. Rankin, R. M. Hederman, Jr., Webb Rife, E. W. Cook, Will Westbrooke, R. L. Stainton, Wilson Brown, T. L. Neese, W. D. McCain and N. A. McKinnon. Chairman Lowe has announced that Hal Moffett and His Band has been secured for the dance to follow the banquet. District Governor John W. Kennedy of Port Gibson will officially visit the Jackson club on this occasion and will present Melvin Jones to the group.

Tentative plans call for Jones to visit Clarksdale and be the honor guest of a special meeting to be held in his honor on Saturday evening, March 30. Invitations will be extended to Lions clubs in the northern part of Mississippi, east Tennessee and east Arkansas to join Clarksdale in this meeting in honor of the clubs founder. Other plans for entertainment for the distinguished guest call for a visit to Natchez for the Garden Pilgrimage in progress there.

One fellow, whose name nothing would draw from us, says the way to start the day right is to give the wife a good beating.

WPA Hamby has been in high lately, looking after the county farm to market road construction given a new impetus since the weather cleared.

Lowry, Johnson and Hurd Horton have been deviled almost crazy by job-hunters.

Speaking of Hurd, Whit Singleton brought him some spare ribs and sausage recently. Hurd says Whit looked sort of contrite.

It looks like the old lady, in her society dose last week demoted Will Harris Crowder, making another fellow head of the No. 8 Highway construction. Our error, Brother Crowder, Will Harris is in charge, and the construction is in good hands, too.

Our Mt. Nebo subscription agent, G. S. Burke, and our Grenada agent, H. Greenfield, ran a dead heat up until midnight Monday. Five each.

Mrs. Ruth Thomas called in to say that she was about old enough to drop "je" in Ruth. All right, we will do it in print, but we are always going to think of this splendid lady as "Miss Ruthie", as we have for fifty years.

Carey Cook, a sterling citizen of Mt. Nebo, has been added to the list. Guess old man Jutt got tired of lending him his own paper.

If anyone wants to get a good view of Grenada County, go out to the Rimbo fire tower, climb up 110 feet and get an eye full. They might buy a bottle of Mustang, or some other good libment and apply freely to the calves.

A large steam-driven oil drilling rig was moved into the Skuna Valley, near the Hyde Place, in Yalobusha county Monday by the Stewart Oil Company.

Mr. Stewart, president of the company, announced that he hoped to be drilling by Monday.

Somebody evidently believes there is oil in this vicinity, for it costs real money to move rigging and drill holes.

#### SENIOR CLASS PLAY

The senior class of Grenada High School, directed by Miss Lucile Owen, presented a most enjoyable comedy to a packed house Tuesday night.

The three-act play, "Dotty and Daffy" was well acted throughout. The cleverness of the comedy and the dramatic ability of the players was thoroughly appreciated. Each act received heavy applause.

Spot Clark, our good old Calhoun friend, if off at Hot Springs with the Roses. His wife went along to keep an eye on that gallant blade.

## Home Demonstration Club Meeting Exhibited Clothes Made this Spring

The clothing leaders meeting was held in the Home Demonstration Agent's office Monday, March 25 with 16 leaders present. The purpose of this color demonstration is to familiarize the women with the different color combinations (harmonies) and give them some idea as to how to proceed in using and combining colors for any use, especially dress, clothing.

Just a few fashion pointers: Colors are so fresh and clear and beautiful this spring, but be sure you try the material around your face and look into the mirror a long time until you are sure it does something for you—sure you can be happy in a dress of it—sure you look your mature, adult self and not a fashion-minded, flabbergasted female whose heart beats only to move the frill she wears across her breast. Of course many colors should stay on the shelves as decoration for the stores, but many will be nice for you, and becoming on many girls and women. Just be sure the color is right for you. No matter how pretty and how many are shown oh how much the clerk insists that a certain color is being sold to everyone, you pick and choose for yourself. With regard to colors, the saying of an old man I once heard of certainly applies he said, "Don't you ever let anyone

## Madden C. Horton Died Sunday, Was Buried Tuesday

Mr. Madden C. Horton, whose former home was in this county, died at the age of 68 in his home near Clarksdale Sunday, March 24, 1940.

Before he left Grenada in 1901 for the delta, he served as deputy sheriff under the late W. H. Crowder. After moving to the delta he and Miss Hardin married, and reared a fine family, seven of whom, three sons and four daughters survive.

Carrying out his wish that his body be buried with his people in Grenada county, his remains were brought back here Tuesday and buried in the Horton old cemetery in Beat Three.

In addition to his widow and seven children of the delta, he is survived by five brothers, Finley, Warner, Eugene, Gus and Modie Horton, and one sister, Mrs. L. M. Williams.

The sympathy of this newspaper is extended to the bereaved ones.

#### FINAL REPORT OF SEASON

The above named have returned to their homes, however because of Dr. Province's critical illness. Some of the children living near Grenada have been called to his bedside.

That's all stuff about the legislators wanting to get back home to plant a crop. Most of them I saw would not know a singletree from a devil, nor a middle buster from a hame string. They just know that they have made all they can, and expenses are going on. Anyway, special sessions now pay ten bucks a day.

The Red, Red Rose may look and smell tolerable well; the Rose of Sharon may have a place in history hard to beat; the Roses of Pearly are too far off; but Charlie Rose of Route 1, trapper in the Greenfield seine, has the sweetest smell of all.

In spite of the new ones who walk in, mail in and send in, and in spite of the new fish enough in the Greenfield and Burke nets, we still are woefully short of having 80 percent of the homes of the county on our mailing list. Unfortunately for us, we never will have that many, for about 30 percent of our people cannot read.

The telephone company is putting in some new and taller poles. Ask somebody else why?

WHY NOT REDUCE IT?  
(An Editorial Note)  
The Conner administration spent \$22,000,000 in two years. The White administration raised it to \$18,000,000. The Johnson administration wants \$44,000,000. Everyone apparently is perfectly willing to accept a \$40,000,000 budget which is twice what Conner spent, and more than the all-time high of the White administration.

We cannot see why people and their representatives do not strive and work for REDUCTION, instead of accepting each annual increase as a matter of course.

Where will it end?

## No State Advalorem Tax

Hon. Walter Sillers of Bolivar has a plan of abandoning the advalorem tax as a source of state revenue, of replacing the loss from that source so far as public utilities go by a franchise tax, and of leaving the ad valorem tax exclusively to the counties, districts and cities. There may be serious objections to this plan, but we see none. It looks like a good plan to us.

The contention that the public utilities will escape is answered by the statement that a franchise tax designed to produce ten percent more than the present ad valorem tax produces from them will be imposed on the utilities. This answers the group that bellows, "Oh, you are letting the big boys escape", when an attempt is made to reduce the advalorem tax by the state.

The principal thing that hampers the procedure in the legislature today is the state ad valorem tax. It has bedeviled every legislature of the past, and will bedevil every legislature of the future. The state ad valorem tax is the football of the politicians, each politician maneuvering to fix the tax where it will hurt his own section least and benefit most.

Abandon the ad valorem tax for state purposes, and we can immediately get rid of the annual bickering of the supervisors with the tax commission. No longer will our supervisors have to make annual trips to Jackson to dicker with the tax authorities who have ordered perpendicular raises in certain classes of property.

Leave the ad valorem scheme of taxation to the cities, the counties and the districts, and let each taxing unit have its own idea of valuation and its own idea of the necessary levy to produce its necessary revenues.

Leave the ad valorem scheme of taxation to the local units, and it will make no difference to Coahoma County whether Grenada County mules are assessed at \$4000 a head or \$40000 a head, or to Grenada County whether Coahoma land is assessed at a dollar an acre or fifty dollars an acre.

Leave the ad valorem scheme of taxation to the local units, and thereby promote one of the fundamental ideas of Governor Johnson—more local self government. How can we have local self government when some commission in Jackson says, "Hell, your mules are too low; your land is too low; your cars are too low", and make us change these values according to THEIR ideas?

Abandon the ad valorem field to the smaller units of government, and we would not have any "Delta bloc" (composed of about six men from the Delta and sixteen men from the hills) today. Abandon it, and we would do away with many "bloes" and many ills and many long days of bickering.

We believe Walter "has something" in that scheme.

## Mr. Farmer, Better be Safe than Sorry

Corn planting time is almost here. Some farmers have seen the splendid-looking corn that has been shipped in here from the North and they have saved several of the best-looking ears for SEED corn.

But if these farmers plant this corn, they may wake up to find that it is HYBRID corn and that they will get distressingly low yields.

Hybrid "SEED" corn is all right, but be sure that you have HYBRID SEED CORN and not the regular commercial Hybrid that has been shipped into this section.

Hybrid SEED corn is the first generation cross or hybrid involving two or more inbred strains of corn.

The ordinary Hybrid that has been shipped in here is a second generation cross and is NOT suitable for SEED.

There is just ONE safe rule to follow in planting SEED corn and that is to be CERTAIN that what you are using is GOOD SEED. If you grow the corn yourself you are safe, but if you just picked it up from some trucker you had better not take a chance on planting it.

Go to your local seed dealer and get some good Hybrid SEED corn and you will be safe. Or if you prefer the ordinary corn, the open-pollinated type, you can buy this.

Hybrid SEED corn that is adapted to this section can be secured from your local dealers and you will be pleased with it, but don't take a chance with seed about which you know nothing, for GOOD CROPS only come from GOOD SEED!

## Coffeeville Likes George Too

We now come to a brand new subscriber who wants his paper sent to Grenada. This man is small of stature, but has a big heart, as could be testified to by nearly every person in this county. This man has gone into probably fifty percent of the homes in this county and removed things therefrom that broke the heart of every member of the family. Seemingly, a man that has done these things would be very unpopular, but not so with this man who carries on his work in a very sympathetic, solemn way. He knows his job and does it in a way that has made him many very close friends. If you have not already guessed, the subscriber is George Garner, of the Garner Funeral Home, Grenada, and we may say here that we are glad to send him the Courier, and hope that he will enjoy reading it.

—The Coffeeville Courier

They are laying a lot of saying on Confucius that he did not say.

## Interested Too Late

If half the energy and half the money now being expended in browbeating the legislators and bludgeoning them into the economy ranks had been expended last summer in electing a doer and in defeating a promoter, there would be today a doer at the head of government.

We imagine Grenada is a typical community and that our people are typical people, and therefore we imagine that what is true here is also true of other communities. Some of the boys who are now bellowing the loudest and who are doing the most telephoning, telegraphing, writing and who are spending the most money and time in seeking to thwart the administration's plans are the very individuals who, before the first primary, were ranting and raving about Tom Bailey, and who, at the run off, reluctantly and somewhat piously, and with apologies to conscience, and with fingers holding noses and eyes averted in shame and humility, made an "X"—and a damn small "X" at that—by the doer's name.

If they had worked half as hard trying to elect the doer as they are now working to undo what they, thru their indifference, permitted to be done, they would not have to spend as much time, as much money and as much writing paper as they now are, perhaps hopelessly, doing.

So mote it be.

## A Flower to the Living

The subject of this editorial is a Jew. He is a member of the race which, for two thousand years has had no flag, no country; but a race, which, though buffeted about, persecuted by the majorities, and subjected to numerous indignities, has preserved through it all its racial integrity. This man is always courteous; he is always kindly, always hospitable, always generous. We have seen him under stress, but never have seen him visibly excited. While in our opinion he often lets his "likings" get the better of sober judgment, he is ceaselessly loyal to the men and the causes he espouses. He spends time, money and eloquence in the cause of his friends, political and otherwise. He will bet his money and, if necessary, sleep in the street. No one could ever convince us that his home life is anything short of ideally happy and tranquil. Upon his devoted wife he showers the love and affection, the tenderness and the consideration that one ordinarily expects only from the bridegroom. To Colonel Henry Kahn of Duck Hill, who is celebrating his birthday (which one, does not matter) Sunday, we hand this little flower, and with the flower the sincere hope that he may continue to live to serve his wife, his friends, his state, and his country, for therein he gets his greatest joy.

## H. O. Bailey

From what we had been reading of Mr. H. O. Bailey, recently appointed as head of the Highway Patrol, we gained the impression that he was a regular Cajun, spoke French-English and was a Louisianian by birth and citizenship.

Mr. Bailey dropped in to see us the other day. We found out from him, and have no reason to disbelieve him, that he was born over in Scott County; that his father and Judge Johnson's people were life-long friends, as he and Judge Johnson had been; that he was working at the Edwards Hotel when the war broke out; that he enlisted in Battery B, a part of our own regiment (of which the writer was Regimental Sergeant Major), on April 12th, 1917; that he went overseas in May 1918 and fought for his country in the outfit to which he had been sent as a replacement. Many Grenada members of this regiment may remember Bugler Bailey. Frankly, until Mr. Bailey came by, we had never associated Patrol Chief H. O. Bailey with Bugler Bailey of Battery B, 140th U.S.F.A.

Technically disqualified to hold the office to which he had been appointed, he did not cuss, rant, rave and raise hell about it, but did feel that the world was dealing him some mighty sorry cards, when he had been used by Fred Sullens as a club to beat Governor Johnson with. And, somehow or other, after talking to this apparently frank, honest citizen, we are inclined to think that he did get a rough deal.

## Second "Dose"

This is the second "dose" of the GCW that about 150 non-subscribers of this community are receiving.

The reader noted in last week's issue that we deal exclusively in local news; that we leave to others the duty of detailing the doings of the Dalmatians, the encroachment of the English, the frivolity of the French, and the peripatinations of the Patagonians. We confine our efforts to the gleanings of Grenada, the gossip of Graysport, the nuggets from Nebo, the outbursts of Oxberry and the hell-raising of Holcomb.

We take no less pride in, and make no greater effort toward "what we print" than in "how it looks". If we were making a personal call upon you, the prospective subscriber, we would not leave a dirty, ill-printed calling card, nor will we, in visiting your home, send you a slovenly, mussy and messy looking sheet which looks like the dogs found it down on the Peavine and dragged it in.

We hope you enjoyed last week's issue which, frankly, was larger than usual; hope you enjoy the issue you are now reading, will enjoy next week's issue, and will see fit to come in for 12 months treatment.

## Sol Jacobson

Among the many people of Grenada who have gone to Memphis and made successes, not one has made greater success in shorter time than Sol Jacobson, who now owns a six-story furniture business on South Main street.

Grenada people who visit him never have an opportunity to buy anything, so busy are they in answering questions about this and that person in Grenada, how so and so is, and what has become of him or her.

Sol went to school here with John Huffington and the boys and girls of that age. His father's store, where the Fatherree Drug Co. now is, burned. The family moved to Memphis. Sol made the grade. His friends in Grenada are proud of his success.

## Confucius Say

"Oh, wise Confucius," said a subject, "I do not like the way things are going here in Pekin. I do not like the Emperor, nor the selectmen of Pekin, nor the mandarins who rule this province. I do not like the way the Pekinese hold their elections; elections across the Yellow river are held different. Father Confucius, I do not like anything done here in Pekin. The children of thy subjects go to unsafe buildings to receive learning. The buildings across the Yellow River are mighty and strong. Thy business leaders art monsters. Thy people are fools. Thy selectmen persecuteth me by making me kick into the treasury like common folk. Thy soldiers are down on me. Advise me, oh wise and glorious Father Confucius; advise me what to do."

Confucius, he say: "No like Pekin, leave. Mebbe things better 'cross Yellow River."

We poor aldermen and the poor supervisors must have done all right this week, as neither has been cussed out.

Some of you have wondered where Me and Mike had gone. Here we are.

## Seen, Heard and Told By The Editor

It looks like we are not going to find any room for TVA dope for a long time, as the power trust has an ad scheduled each week for many weeks.

We poor aldermen are enjoying a nice rest from cussing here lately. We must be doing all right.

Thought it was Diogenes across the street with a lantern. However, it was Sanford Horton with an electric flashlight looking for an aluminum token.

William Saunders has applied for admission to the Dishonest Aldermen's Club, sometimes called the Peepunder Club.

Aint they sweet.

## Where There's Smoke, There's A Loss to Farmers

Smoke again covers acres of woodlands, blows over onto highways and seeps into homes as farmers with little foresight burn over farm woodlands in the mistaken notion that it "is good for the land".

These fires, set on purpose by the landowners, who thus get an earlier stand of grass, destroy small trees, damage large trees, destroy forage plants, kill game, slow tree growth, allow entrance of insects and diseases, and hastens soil erosion.

If this is not enough reason why burning land over should not be discontinued, consider this fact: One unburned acre covered with carpet grass or lespedeza has more good cattle feed than 10 to 20 acres of broom sage or wire grass burned annually.

—Semi-Weekly Leader.

What is said above is generally true over the state but, fortunately for Grenada County, this county has an efficient fire control organization headed by Captain Jim Shaw which has reduced loss from field and forest fires to an almost negligible acreage.

My old lady and Roy Boteler's old lady met each other Sunday and seemed to like each other. Both of them are 100 percent Conner "men".

Sissons had a mighty good article in the CA Sunday. However, the CA neglected to mention anything about any thing that had happened in Grenada.

Brother Wiley is preaching some powerful sermons, they say.

Joe Neely had a grand day last Saturday.

It looks like Orl Taylor would jar loose with a subscription, as Mrs. Taylor thoroughly enjoys the GCW.

Our puppy, Penny, alias Bilbo, has been acting mannish here lately.

Those Easter outfits Sunday looked cute, but damn cold.

Cousin Ludy has made a regular church-goer out of cousin Pete.

Whenever WGRM gets tired of the swamp, it should come back "home" to Grenada. WGRM was a real asset to Grenada, and folks appreciate it more since it moved than they did when it was located here.

Ed Lewis is the hardest hearted potential subscriber we have. He just won't jar loose.

There is hardly a better man in Grenada than Squire John Gibson. When he was in his productive years, he put up something for this period of life when he is no longer able to produce. He is a real "ant".

Met another subscriber Sunday. E. W. Boteler of Florence, father of a fine family of men and women, and his fine wife.

## APRIL NEWS BRIEFS

The student body assembled in the gymnasium at 8:20 Monday morning and participated in a Jitterbug contest. Music was furnished by GHS swing band, composed of the best swingsters in the county and directed by that king of swing, Roger Dollarhite. When we returned, we found a brand new Coca-Cola machine in the hallway. On the way back we heard the big news that William Winter and Louise Avert had been expelled for rowdy conduct in chapel and that Max Juchelm was to be valedictorian. Brace yourselves for a shock, folks—Charlie Calloway washed his face and Libber Dogan gave Joe the gate. Because of his lax and flippant attitude towards his studies, James Thomas has so lowered the morale of the student body that he has been asked to leave school. Fred Hodges and Bubler York got to school at six o'clock last week. Miss Haynes has issued a decree that none of her pupils should ever have anymore home work to do. Oh, er, pardon my cliché but your shoes are untied—April fool!

## CARD OF THANKS

I wish to express from the bottom of my heart the appreciation I feel for my compatriots in Algebra II who gave me such whole-hearted support in promoting my candidacy for representation in the literary contest. Without malice towards Rice; with charity for Miss Haynes, I am laying my plans for my campaign in Algebra II next year.

Respectfully submitted,  
COLONEL JNO. B. WHITE

The Grenada Baseball nine defeated Holcomb, Thursday, by a close score of 4 to 2. The pitcher for Holcomb was Taylor; the catcher for Holcomb was Taylor, the pitcher for Grenada was E. R. Smith and the catcher, Cecil Hendricks.

In the last of the first inning Hudson led off with a triple to right field. He scored on Harper's long to center field. Two runs were made that inning. In the fourth inning, pitcher Epp Smith slammed out a triple. Hudson in the fifth connected for another triple. The score was tied one time, in the third inning 2 to 2. It seemed like a pitchers duel from beginning to end although Grenada collected six hits, it didn't enable them to run up a high score. Holcomb gained its score by errors. The crowd was noticeably small.

Her ambition has always been to be an orchestra leader; and now at sixteen she is coming very near to the attainment of her ambition. Standing in Mr. Dollarhite's place on the bandstand waving the baton expertly she shows in her little tanned face her true love of music. As representative of Grenada Band in the student directing contest she will probably do honor to GHS band. Prometheus' smiles in approval on Joyce Fleming.

## ROMANCE AS SEEN IN GRENADA THEATRE

They enter one at the time. He, buying her ticket so she can get in for a dime (her dime, by the way). He a bold Junior, she a shrinking Freshman. They meet in the aisle, scramble over dozens of grammar school "kids" and find seats next to Her best friend and settle down to popcorn and gossip. The lights go out. Focused on the screen is a breath-taking love scene. The eyes of Robert Taylor (sister from all the girls) meet those of Hedy Lamarr (woo-woos from all the boys); they pause for a brief moment, then begin a fond embrace.

All the grammar school "kids" stareoggle-eyed. Her best friends nudges the next door neighbor and they giggle enthusiastically at—not Robert Taylor, not Hedy Lamarr, but the bold Junior and the shrinking Freshman tenderly holding hands.

## THE LORD IS RISEN

(From an order of service pamphlet in Episcopal Church)  
"After the dark of night, the light of dawn; after the bleakness of winter, the newness of Spring; after the crucifixion, the Resurrection Easter again in the mercy and grace of God Who Maketh All Things New."  
Easter has its own glorious spirit and beauty and each moment is laden with its own significance and memories. But beyond the significance of the early return of this Christianity's most important festival, is the significance to us as individuals. To those who believe and have an understanding of the ways of God, God has given us the Resurrection of Christ the promise of new opportunity, for we may, when we have come to ourselves and recognized our failures, begin anew to live according to His will."

## HONORED LAST WEDNESDAY

## HONOR SOCIETY ELECTS

The Honor Society met in Miss Turner's room Thursday at 12:30 for the immediate purpose of electing officers. William Winter, the vice president, in the absence of the president, Paul Lockett, took charge of the meeting and received nominations for the three officers. William Winter was elected president; Charles Kenwright, vice president; and Miss Turner, secretary-treasurer. All officers were elected unanimously.

A resolution made by Marie Blaylock to the effect that our chapter meet at three o'clock each Wednesday was seconded and passed unanimously. Our first project was that of helping promote the Senior Play.

Last week the annual I. Q. tests were taken by the freshmen and those other students who are serving their first year in this school. Highest freshmen score was Royer Pleasants with a score of 144; second was E. C. Litten with a score of 123. Kathleen Carlisle, Bobby Barriss, and Marjorie Chapman, three new students here, proved themselves worthy additions to our school by making high scores. Lucy Goss rated high; Bennie Moore made a good score but disappointed as slightly.

Some nearly went crazy over the crosses and squares and triangles they had to arrange. Poor little freshmen. This test gives the faculty some idea of the capability of the student by determining his general knowledge.

## MT. NEBO NEWS

Mr. and Mrs. Willie Todd, of Hardy visited their parents, Mr. and Mrs. D. J. Hall Sunday. They were accompanied by their little daughter, Mary Sue.

The trustees of Nebo School Albert Clarke, Gaston Trusty and Price Jones reelected. Miss Mary Carter to teach next term here. We always thought they were men of good judgment, now we know it.

Mr. Editor, your article about the twilight sisters, "Carries on" at Jackson amazes us. We thought Baton Rouge and Nashville had a corner on such. We don't think its right for our poor harassed lawmakers to be annoyed by any such devilment.

Easter Sunday was a drab day here. Thunder, rain, some little sleet and only 7 degrees above freezing. And so the parade was called off. Most every one hugging the fireplaces. Everyone sober.

Harvey Clarke made a gee ham-pull for Calhoun City Thursday, also D. J. Hall and Alton Sugg went Saturday.

We have several requests to write "a piece" about building the Armory at Grenada and beg to say, we think we have already (inadvertently) said too much about it. Our job is to write Nebo News, but we sometimes forget and stray off, but we steer clear of arguments (in print) but when we face a sure enough issue, we never dodge it.

## My Column Whyte Whitaker, Jr.

When we said last week Spring is here" we meant theoretically, for it did begin according to the calendar on March 2nd. In reality it played the devil getting here.

Felt sorry for the wimmin folks Sunday. It was too darn cold for them to show off their Easter frocks.

And that was a pity, poor things, they had worked so hard shopping, cleaning up old clothes, and the like.

There is no telling how many stores they visited picking out, trying on, setting on and off Easter bounnets. Then came the cold wind like a robber in the night, and stole away their hopes of wearing them.

The wind was rather stinging, cold enough to make the men folks search frantically for their overcoats, which were stuck around in some closet, not expecting to be worn again until next frost.

Keep your pace, ladies and gentlemen and rolling pin dodgers, your Easter frocks weren't seen by anyone except members of the family. They will be as new as ever next Sunday and you can strut out in them then.

PROCLAMATION—Since through unfortunate circumstances it was physically impossible to wear new Easter garments on March 24th, I, The Average Fellow, do hereby proclaim that the 31st day of March 1940, be a pro Easter day, and on the said day new garments may be worn and shown.

Hector Lane, M. M. Batson, Jr., Durrow Horn, Jr., Virgil Barnes, and I had a "Mississippi Bridge" game the other night to the sorrow of the first three.

See in the papers where the English are going to put a barter on the 1940 cotton crop—and are to do most of their buying from South America. They have pulled the wool over our eyes so much that the fact isn't surprising at all. Since she is engaged in a war it looks like an ideal time for economical retaliation.

Senator Van Nuys (D., Ind.) sponsor of the Anti lynching Bill is trying to get the Tom-Foolery through the Senate again. Senator Bilbo said he would talk the measure to death if his wind holds out. Use your privilege to filibuster—Give 'em hell Bilbo.

Incidentally, if Father Devine, negro religious leader, who has been stirring up all this racial hatred, doesn't like the way this country is run why doesn't he and his "Angels" go back to Africa. We can "stood" it.

The Dyre-Kent Drug Co. and Yolles Department Store have installed fluorescent lights in their stores. "Radio" Wells is the Grenada agent, and is in charge of installing.

You have never seen true artificial daylight until you have seen these new lamps. The artificial illumination equals mid-June daylight. It gives several times more light than incandescent bulb of the same wattage. Truly these lamps have brought outdoor light indoors.

"Gone" will be in Grenada the 14th of next month, and is to run four days.

Paul Lockett is becoming quite a boxer up at Ole Miss—he hasn't got over three black eyes in three fights. Stay in and pitch with them Paul, if you stay with it long enough you will either get some sense knocked in your head, or knock some out of some one else.

Sorry to note that Edith Penn had to go to the hospital for an appendix operation. Hope you recover soon, Needle.

## A MESSAGE FROM THE A. & P. FOOD STORES

TO OUR CUSTOMERS

Do You Want to Pay Higher Food Prices?

House Bill 708, passed by the Mississippi House of Representatives and soon to be considered in the Senate, strikes a blow at the pocketbook of every consumer.

This bill imposes an additional tax on chain stores in spite of the fact that the chains in Mississippi are already paying a heavy punitive and discriminatory tax. Such a tax means higher retail prices for food—means reduced consumption. The bill strikes a severe blow at both Mississippi producers and Mississippi consumers.

In other words, House Bill 708 is MORE than a tax on chain stores. It is a burden on your family budget.

TO MISSISSIPPI FARMERS

Do you believe it is fair to place special taxes on chain stores which buy millions of dollars worth of your farm products annually?

House Bill 708 attacks your interest NOT ONCE, BUT TWICE.

First, it hits your pocketbook as a CONSUMER. It will make you pay more for the goods you buy in stores—FORCE YOU to buy less.

Even more important, it attacks you as a PRODUCER of Mississippi cotton and vegetables. This new tax on chain stores will reduce consumption of your farm products by further increasing retail prices.

IS IT FAIR TO FARMERS TO SINGLE OUT THEIR BEST CUSTOMERS AND DESTROY THEIR MARKETS THROUGH SPECIAL TAXES NOT BORNE BY OTHER MERCHANTS?

Chain stores spend \$17,000,000 a year in Mississippi for foodstuffs and industrial products, which they distribute through every state in the Union. These chains spend an additional \$6,000,000 annually for wages, rents, advertising, taxes, etc. To restrict the activities of the chains, therefore, is to slow down the State's business life.

IN OTHER WORDS, HOUSE BILL 708 AND ANY SIMILAR MEASURE WILL HURT BOTH MISSISSIPPI PRODUCERS AND CONSUMERS.

The A & P believes it has a duty to bring these facts before you. We want to, and believe we do pay our full share of the cost of government. But our responsibility to our customers and to the producers of the State demands that we oppose and punitive taxes which increase retail food prices. We believe that you will want to join us in protesting against this bill.

LET YOUR PROTESTS BE HEARD

Tell your Senator and your Representative in person or write to them of your opposition to this new tax on chain stores and upon your family pocketbook.
